Do you prefer living in a town or living in the countryside?

A lot of people in the city feel tired and stressed/ fed up/ upset and long for (toužit) the **peace and quiet** of the countryside. People go for walks to the river, go to the mountains during holidays. There's a lot of smog in the town. I prefer busy life/ active life. I like meeting people, visiting my friends, I do not like the still (klidný) life in a village. In a village there are no jobs, you have to travel to towns/ you have to commute. (dojíždět)

Where would you like to live in the future?

I am planning to move into a village/ I am going to live in a town in the future. I would like to move somewhere quiet in the future. Cities are too noisy for me.
