

**Tiggy Hawke & Cowens brothers
REMEDY**

So even when the sun's down, and we're
runny with our guns out,
I can always hear your heart loud, let it
beat now, we're alright now

When the rhythm _____(get) too slow,
I _____(be) a Melody, a sweet song
you and I can make the fire glow, through
the smoke, I _____(never let) go.

R:Don't you know, if you _____(do) the
right thing, no matter what you might
think, I'm not your enemy.

Don't you know, you _____(never see)
what I see, all the things we could be,
if you _____(want) me, I _____(be)
your only remedy.

We've been walking down a long road,
and the ground has gotten stone cold,
we've been high and we've been real low,
we've been uncaught, never got lost.

When the rhythm _____(get) too slow,
I _____(be) a melody, a sweet song, you
and I can make the fire glow, through the
smoke, I _____(never let) go.

R:Don't you know..... I _____(be) your
only remedy, I will be your only remedy.
