

Úvod k maturitním tématům

Cities in the Czech Rep./ Hradec/ Praha/ My hometown

Many Czech towns consist of two different parts – an old, historic town and a new, modern part.

In the old town there is usually a square with a town hall, a church, a theatre, a plague column, a fountain and a few fine residences. In most buildings around the square there are shops and restaurants. Many streets in an old town are narrow. There may even be a castle.

The new town is a vast housing estate and often more people live there than in the original town. You can find schools, hospitals, shopping centres, cinemas, theatres, libraries, sport centres, restaurants, hotels, and a great number of other facilities and services.
